

Argos will set up and manage your contact database, plus provide instant snapshots of account positions.

But don't just take our word for it

"This system goes way beyond simply recording names and addresses. It saves time in managing client details, but also allows efficient, effortless credit control and marketing."

Asset Finance Limited

"The IRD Certificate printing system is excellent and of huge benefit and has saved me well over 1 week of work."

Finance & Investments

contact management

Administration savings & minimised exposure risk...

Another unique Argos key benefit.

The efficiency with which you are able to deal with all your clients and suppliers can be critical to their perception of you. It requires a system that allows you to very easily access contact information and keep it up to date. With Argos we make it easy to change and control all those details plus keep accurate track of them.

- Administration Savings. Contact names and address details are entered only once, no matter how many accounts they may have with you. And because any changes also only need to be made once, administration set-up and management time is kept to an absolute minimum.
- Exposure Risk Minimised. You can immediately see your history and exposure to a client over all accounts. This offers an instant snapshot of their position. Old and current loans are displayed and can be accessed to enable you to determine whether you are able to advance additional finance.
